Sub: Corrigendum to order for grant of intra state Transmission License to M/s Western UP Power Transmission Company Ltd. and associated license (License 1 of 2012) dated 20th June, 2012

Sir,

In the aforesaid order and license certain inadvertent typographical errors have crept in. Following are the corrigendum related to the concerned points:

i. In the 7th line of the first paragraph of the order, the expression reading “Build, own, operate & maintain” basis shall be read as “Build, own, operate & maintain and transfer (BOOT)” basis.

ii. In the 2nd line of 13th paragraph of the order, the expression “intra state transmission line” shall be read as “intra state transmission license”.

iii. In the 1st paragraph of the order and in the Annexure-1 to the license, a table has been provided giving details of transmission project elements. The table inadvertently specifies the configuration and type of conductor for transmission lines, which stands deleted. Accordingly, the table at both the places will be deemed to be consisting of only names of transmission lines in following manner:

**Transmission Project Elements**

<table>
<thead>
<tr>
<th>S.No.</th>
<th>Name of the Transmission Element/project</th>
