3. Sri Ashok Kumar, G.M., Bajaj Hindusthan Ltd.
4. Sri S.N.M. Tripathi, Sr. Advisor, Bajaj Hindusthan Ltd.

**Order**

(Date of Hearing 05.02.2013)

1. The Petitioner has entered into a Supplementary Power Purchase Agreement (PPA) for supply of total 30 MW power with M/s Mankapur Chini Mills, Mankapur on 27<sup>th</sup> day of September, 2012. The existing PPA dated 14.08.2007 has 8-12 MW (during season) and 12 MW (during off-season) as contracted capacity from

earlier installed capacity of 43 MW. With additional installation of 15 MW capacity, the total installed capacity shall be 58 MW out of which the SPPA has been agreed for a capacity of 30 MW. Accordingly, the parties have settled to revise the existing capacity as 16.5 MW and additional capacity as 13.5 MW (after deduction of auxiliary power @10% from the installed capacity) in the SPPA. As the transmission line already exists, the parties have agreed to deduct the normative cost of transmission line from the capital cost of additional capacity as per the order of the Commission.

2. The Commission approves the SPPA for 30 MW bagasse based power from the total installed capacity of 58 MW. Out of the total revised capacity of 30 MW, 16.5 MW shall be considered as operational since the date of commissioning as mentioned in the PPA dated 14.8.2007 and 13.5 MW shall be considered as operational since November, 2012.
3. The applicable fixed charges for additional new capacity of 13.5 MW, excluding the cost on evacuation system, in preferential tariff for FY 2012-13 to 2013-14 under the existing Regulations in this case shall be as below:

Yr. of commissioning	2012-13 (Rs./kwh)	2013-14 (Rs./kwh)
2012-13	2.51	2.44
2013-14		2.58

The variable charges shall be as provided in the Regulations for new projects.

4. The tariff for supply of electricity from the plant shall be based on weighted average of the contracted capacities of the units commissioned in different years.
5. The petition is disposed of.
